

n8n at the center of your pipelines

WPipe: Mastery of Zen on LI (Post 247)

The context

Simplicity is the ultimate sophistication. WPipe brings Pythonic beauty to your logic. A[Logic] -- B[@state decorator]

Why engineers shift to wpipe

- +117k downloads: A community that values efficiency.
- <50MB RAM: Perfect for Green-IT and edge computing.
- SQLite WAL Checkpoints: Industrial-grade resilience without the overhead.

Code-first

Pipelines are Python: versionable, testable, reviewable in Git.

Checkpoints

State persisted to SQLite WAL at every step; resume, don't restart.

Independently lean

<50MB RAM. No broker, no daemon, no metadata server.

What it looks like

```
from wpipe import Pipeline, step

@step(name="ingest", retry_count=3)
def ingest(data):
    return {"payload": data["rows"]}

pipe = Pipeline(pipeline_name="from_n8n")
pipe.set_steps([ingest])

# Canonical JSON -> typed, versionable Python steps.
```

At a glance

Feature	WPipe	Airflow	n8n	Celery	Prefect	Zapier/Make
Memory Footprint	< 50MB	> 2GB	> 500MB	> 200MB	> 500MB	Cloud / High
Configuration	Pure Python	Python/YAML	Visual UI	Python/Broker	Python	Visual UI
Resilience	SQLite Checkpoints	Postgres/DB	Database	Redis/RabbitMQ	Cloud/DB	None (Manual)

Feature	WPipe	Airflow	n8n	Celery	Prefect	Zapier/Make
Setup Time	< 1 min	Hours	Minutes	Hours	Minutes	Minutes
Cost	Free/OSS	OSS (High Infra)	OSS/Paid	OSS (Infra)	OSS/Cloud	Per Execution
Learning Curve	Low (Pythonic)	High	Medium	High	Medium	Low
Self-Documentation	Mermaid Built-in	Graph UI	Node UI	None	Graph UI	Node UI

Under the hood

The flow behind the post, as wpipe renders it from code.

+117k downloads
A community of efficiency-first developers.

<50MB RAM
Fits containers, VMs, and Raspberry Pi-class hardware.

SQLite WAL
Industrial durability without a database to administer.

Next step

wpipe is a Python library — try it in your next pipeline:

```
pip install wpipe
```

Steps stay functions you already understand. Docs, diagrams, and dashboards follow. Explore n8n workflows at wpipe.readthedocs.io.
